

Lancy Henry Barthelmy 2 year olds

Married with a 2 year old son. I choose education because I love children and care about their future. I would love to see all the children of my country help Haiti and foreign countries. I wish one day that all the children could go to school. By helping Haitian children, you and your family will be blessed by God. Thank you.

Marie Yona Vincent 3 rd grade

I give you a big hug. Why did I choose teaching? Since I was a little girl my dream was to become a teacher. Each time I saw a passionate teacher in front of a class it made me happy and dream that one day I may be able to teach in the classroom myself. I am proud to be a teacher and am still learning to be a nurse, but I am not working in that field. Despite being hard to do, I love working with small children. I will do my best in doing that hard job because it is the best job in the world. I love you so much.

Nadege Jean-Pierre Dejoie 1st and 2nd kinder

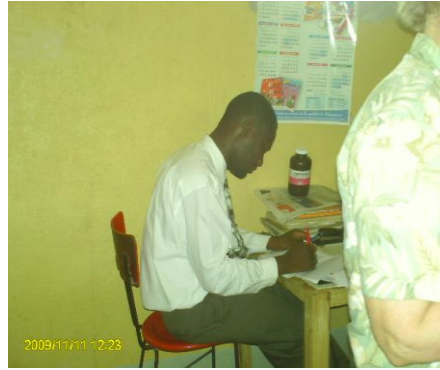

To begin with I want to thank you for all that you are doing for Haitian children. My parents were unbelievable teachers. Like them, I love children and that's why I am committed to teaching children from zero to six years forever. Thank you.

Jean Pierre FrantzBert 4th grade

Every man who lives and exists has a plan, a vision, or an objective. Although in the 3rd world countries it is almost impossible to live your dream. Being a teacher was always my vision. Yes, I always loved school and studying and doing homework. And today if God gives

me the chance to teach children the power of knowledge I will do it for the power of love. By teaching it increases my knowledge and comprehension. For that I want to thank you for your love and believing in the children. The proof is all the children at Ecole Foyer D'Espoir love you and always appreciate your presence. Thank you. 3rd grade

Maude Roulio 6th grade

Why did I choose teaching? Since I was young I felt the vocation. I had the gift. So since 2000 I have had no choice but to fulfill this passion. Teaching is not easy but with the love I have for this noble profession I am completely invested in doing this prestigious mission. Maybe you have heard of Haiti but never got a chance to visit or have been informed about it. It is a third world country where 90% of the education is private. Parents cannot afford to send their children to school. In that context is how Ecole Foyer D'Espoir ended up starting for being able to help those who have had a hard time "bringing bread to the table and paying for school" and that's why I give myself completely in the goal that I will help decrease the number of juvenile delinquents in my country. It is my primary goal and I am convinced I will achieve that goal.

Arnaud Yvelyne Emmanuelle

I choose teaching because I feel passionate about it and because I like to see the evolution of children. By doing so it helps me discover myself better.

These teachers are wonderful. They wrote in French so it loses a bit in the translation.

Consider a donation towards their salaries:

Teachers \$150 a month

To sponsor a student \$30 a month

A dental appointment for a student \$50

Maria (director, principal, and woman to stretch our faith) priceless!
